

Local FileSystem explorer

Organization of the project:

After “log in” the user will be relocated to the main page where he/she can browse through folders and files.

Log in Page

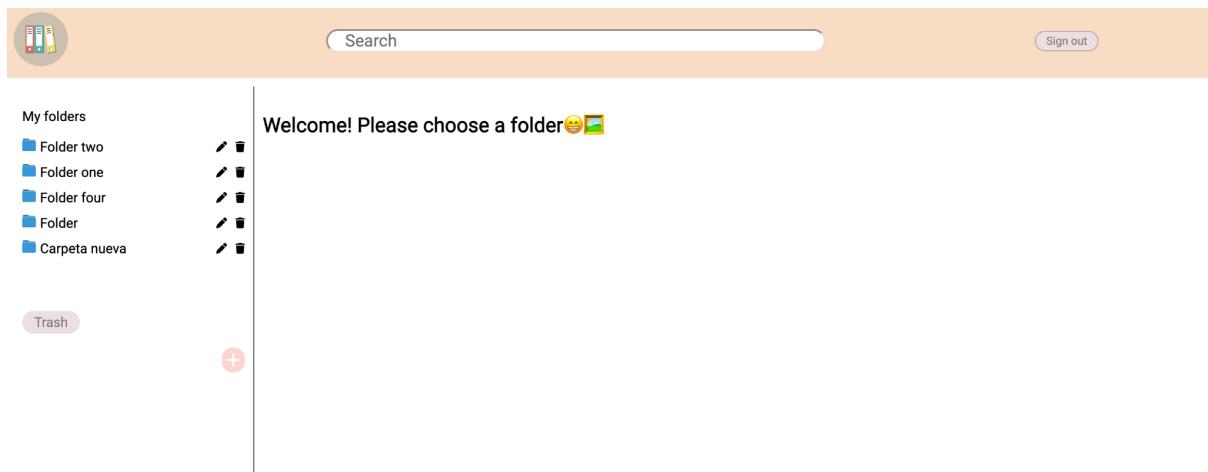

Username

Password

Main page

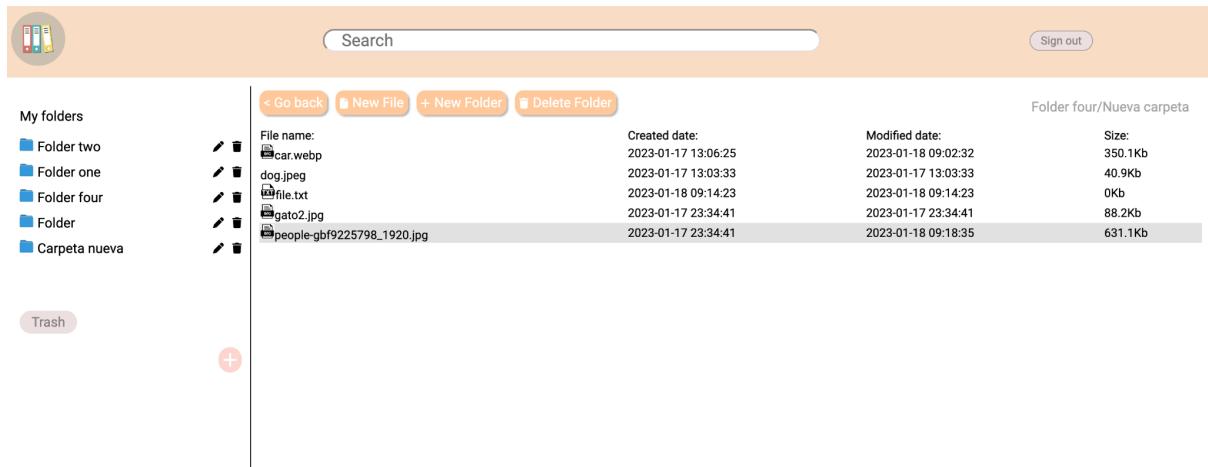

In order to start it is necessary just to click on the folder you want.

At the left part of the screen you have all created folders, if you want to add a new folder - just click on the round button “+” that we have below. Then the page will offer you to put a name for the new folder -> Save -> in the list of folders you will find your new folder.

Main page - Folder opened

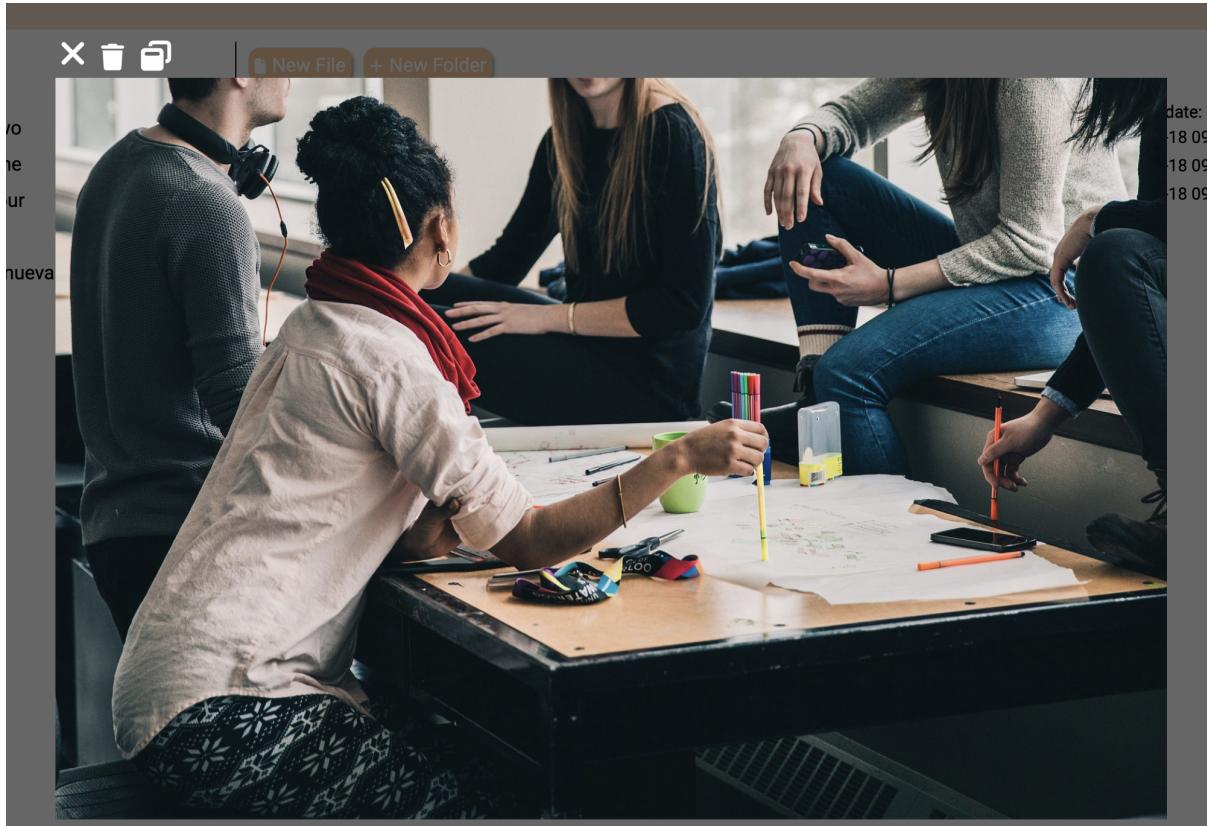

Once the user clicks on the folder -> in the center on our display he can see all files that are stored in that folder and information about them (created and modified dates, size, extension).

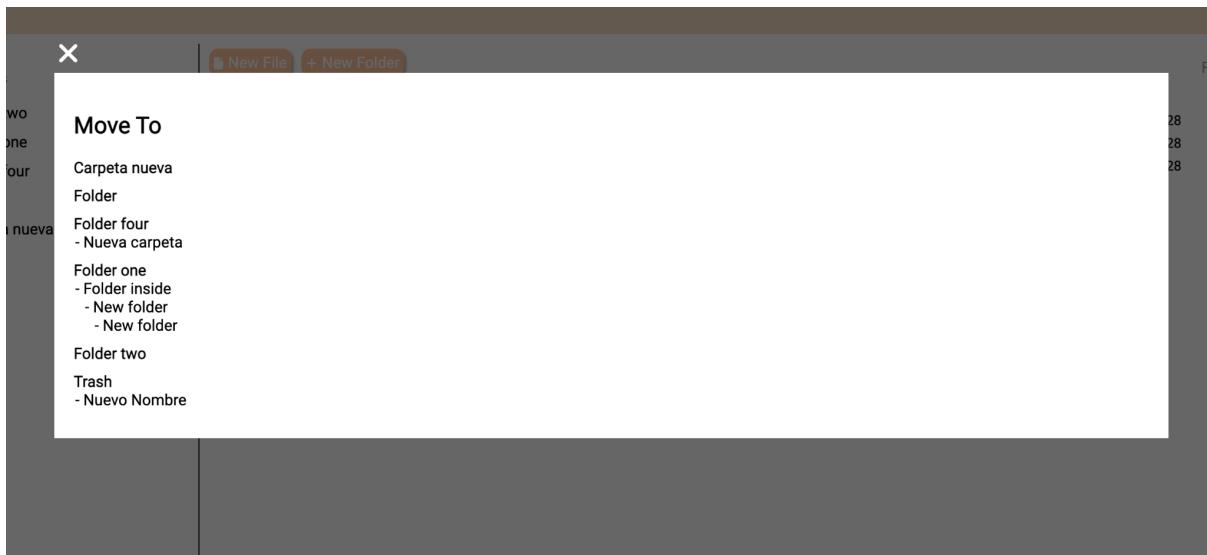

File name:	Created date:	Modified date:	Size:
car.webp	2023-01-17 13:06:25	2023-01-18 09:02:32	350.1Kb
dog.jpeg	2023-01-17 13:03:33	2023-01-17 13:03:33	40.9Kb
file.txt	2023-01-18 09:14:23	2023-01-18 09:14:23	0Kb
gato2.jpg	2023-01-17 23:34:41	2023-01-17 23:34:41	88.2Kb
people-gbf9225798_1920.jpg	2023-01-17 23:34:41	2023-01-18 09:18:35	631.1Kb

Choose file

We also have the option to show the content of the file in pop-up. Once the user makes a click on the file -> the pop-up will be opened. There we have the next options: close file, delete file (it will be stored in the Trash folder) and move between folders.

In a case of “move” the user shout to choose the name of folder where he wants to move the file

Search page

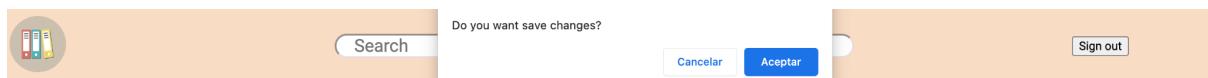

To start “search” it is necessary just put the name of File/Folder or just extension of the file you want and press “enter”. Then you will be relocated to the “search page” with results.

Edit text document page

In this page you could read, edit or delete a text file. It's easy to edit, the user only needs to write on the field and when the file is ready press the “Save changes” button on the bottom of the page.

Either the edit or delete have a confirmation popup, in case the user accidentally makes an action.

Text editor

A screenshot of a text editor window. The main area contains two sections of text: "What is Lorem Ipsum?" and "Why do we use it?". Below these is a section titled "Where does it come from?". At the bottom of the editor window, there are two buttons: "Save changes" and "Delete file". A confirmation dialog box is overlaid on the editor window, asking "Do you want save changes?". It has "Cancelar" and "Aceptar" buttons. The background of the editor window is white, while the confirmation dialog has a light orange header bar.
